

Moustafa Qottp

SOC Analyst | Cybersecurity Analyst | Security Operations

CEH | eCIR | CCNA | MCSA | Windows Server

01000220011 | moustafa.qottp@gmail.com | [LinkedIn](#) | [Portfolio](#) | Cairo, Egypt

• Summary

Cybersecurity professional with 8+ years of IT infrastructure and network security experience, complemented by hands-on SOC training in security monitoring, log analysis, alert correlation, incident response, and DFIR. Experienced with Splunk, IBM QRadar, TheHive, Wireshark, Nmap, Linux, FortiGate, and Docker. Certified Ethical Hacker (CEH) and Certified Incident Responder (eCIR), seeking a SOC Analyst L1 role to apply strong infrastructure, security monitoring, and incident investigation skills.

• Key Skills

Security Operations:

Security Monitoring | Log Analysis | Alert Correlation | Incident Response | Threat Analysis | DFIR | SIEM | Case Management | Syslog

SIEM & Security Tools:

Splunk | IBM QRadar | TheHive | Wireshark | Nmap | Docker

Network & Security:

TCP/IP | Network Security | Firewalls | FortiGate | VPN | DNS | DHCP | IDS/IPS

Operating Systems & Infrastructure:

Windows Server | Linux | Active Directory | Group Policy | PowerShell | Microsoft 365 | VMware ESXi | Hyper-V

IT Operations:

Endpoint Management | Device Management | Technical Support | Remote Support | Ticketing Systems | Asset Management

• Work Experience

- SOC Analyst Intern – Cybersecurity / Blue Team | IT Gate Academy

Cairo, Egypt | Jan 2025 – Present

- Completed a one-year hands-on cybersecurity program focused on SOC operations, security monitoring, incident response, and DFIR.
- Deployed an isolated cybersecurity lab environment using Docker to configure and test open-source security tools and configurations.
- Performed hands-on security monitoring, log ingestion, and alert correlation using Splunk and IBM QRadar.
- Configured incident response workflows and managed simulated security alerts using TheHive case management platform.
- Integrated firewall systems with SIEM solutions using Syslog to centralize security event visibility and monitoring.
- Conducted hands-on DFIR and ethical hacking exercises across Windows, network, and web environments.

- **IT Infrastructure & Network Support Specialist - Trio Services**

New Maadi, Cairo | 02/2022 – Present

- Managed Windows Server, Active Directory, Microsoft 365, and enterprise network infrastructure supporting 700+ users.
- Monitored and troubleshoot network connectivity, DNS, DHCP and endpoint issues to maintain secure and reliable business operations.
- Investigated and resolved infrastructure, endpoint, and network-related incidents while minimizing downtime. Implemented Group Policies, user access controls, and security best practices across enterprise environments.
- Managed endpoint devices and enterprise hardware across multiple sites, ensuring proper configuration, availability, and operational support.
- Reduced incident resolution time by 75% through implementing an IT ticketing system.
- Led the deployment of enterprise Wi-Fi infrastructure for Air Defense Stadium, ensuring secure, reliable, and resilient network connectivity.

- **IT Infrastructure & Support Specialist (Part-Time) – SKY HRT**

Cairo, Egypt | Apr 2025 – Present

- Designed, implemented, and maintained IT infrastructure for a small business environment, including Microsoft 365 administration, network connectivity, endpoint security, device management, and technical support.
- Configured and managed Microsoft 365 business accounts, user access, and email services for company employees.
- Managed routers, network connectivity, endpoint devices, and infrastructure-related troubleshooting.
- Provided ongoing technical support and troubleshooting for hardware, software, Windows operating systems, and network connectivity issues.

- **IT Infrastructure & Network Administrator – COMPUHOME Company**

Cairo, Egypt | Jun 2012 – Jun 2017

- Installed, configured, and maintained software and Windows workstation environments for engineering clients.
- Performed software installation, configuration, updates, troubleshooting, and version migrations for engineering applications.
- Configured and optimized high-performance workstations, storage, memory, and GPU resources for CAD, 3D modeling, rendering, and engineering applications.
- Configured workstation drivers, peripherals, and hardware components to maintain system reliability and performance.
- Diagnosed and resolved software compatibility, installation, licensing, and performance issues across Windows workstation environments.
- Created and deployed standardized Windows images to accelerate workstation deployment and improve environment consistency.
- Provided onsite and remote technical support, troubleshooting Windows and workstation issues while minimizing operational downtime.

- **Projects**

- **Enterprise Network Infrastructure Project – CCNA**

Designed and configured a simulated enterprise network infrastructure using Cisco Packet Tracer, including VLAN segmentation, inter-VLAN routing, OSPF, subnetting, DHCP, DNS, and network connectivity troubleshooting.

- **Technologies:** Cisco Routers & Switches | VLAN | OSPF | TCP/IP | Subnetting | DHCP | DNS

Project Link: [LinkedIn Project Demonstration](#)

- **Windows Server Administration Project – MCSA**

Built and configured a Windows Server 2019 environment including Active Directory Domain Services, Group Policy Management, DNS, DHCP, user administration, and shared folder permissions.

- **Technologies:** Windows Server 2019 | Active Directory | Group Policy | DNS | DHCP | Hyper-V

- **Certifications**

- **CCNA 200-301 Training** – CLS Courses | 2024
 - **CCNA: Introduction to Networks** – Cisco Networking Academy | 2024
 - **CCNA: Switching, Routing, and Wireless Essentials** – Cisco Networking Academy | 2024
 - **CCNA: Enterprise Networking, Security, and Automation** – Cisco Networking Academy | 2024
 - **Career Essentials in System Administration** – LinkedIn | 2026

- **Training**

- **Advanced Cybersecurity Diploma** | IT Gate Academy | Jan 2026 – Present

Coursework: CCNA | MCSA | Linux | FortiGate Firewall | CEH | eCIR

- **Education**

Bachelor of Commerce – Ain Shams Academy

Very Good | 2018

- **Languages**

Arabic - Native

English – Very Good
