

Moustafa Qottp

SOC Analyst | Cybersecurity Analyst | IT Infrastructure & Network Security

CEH | MCSA | CCNA | Windows Server

01000220011 | moustafa.qottp@gmail.com | [LinkedIn](#) | [Portfolio](#) | Cairo, Egypt

• Summary

IT Infrastructure and Network Support Specialist with 8+ years of experience in Windows Server, Microsoft 365, Active Directory, and enterprise network administration. Certified Ethical Hacker (CEH) with hands-on knowledge of security monitoring, vulnerability assessment, network security, and incident response. Currently transitioning into Cybersecurity and seeking a SOC Analyst opportunity to apply strong infrastructure and security skills.

• Key Skills

IT Operations	Systems Administration	Security Operations	Soft Skills
Technical Support	Windows Server	Security Monitoring	Problem Solving
Endpoint Management	Active Directory	Vulnerability Assessment	Analytical Thinking
Remote Support	Microsoft 365	Log Analysis	Communication
Troubleshooting	VMware ESXi	Threat Analysis	Teamwork
Ticketing Systems	DNS & DHCP	Incident Response	Adaptability
Asset Management	Hyper-V	Network Security	Continuous Learning
Device Management	PowerShell	Wireshark	Attention to Detail
IT Infrastructure	Group Policy	Nmap	Time Management

• Work Experience

- IT Infrastructure & Network Support Specialist - Trio Services

New Maadi, Cairo | 02/2022 – Present

- Managed Windows Server, Active Directory, Microsoft 365, and enterprise network infrastructure supporting 700+ users.
- Monitored and troubleshooted network connectivity, DNS, DHCP, VPN, and endpoint issues to ensure business continuity.
- Investigated and resolved infrastructure, endpoint, and network-related incidents while minimizing downtime. Implemented Group Policies, user access controls, and security best practices across enterprise environments.
- Managed endpoint devices, printers, surveillance systems, and enterprise hardware across multiple sites.
- Reduced incident resolution time by 75% through implementing an IT ticketing system.
- Led the deployment of enterprise Wi-Fi infrastructure for Air Defense Stadium, ensuring secure and reliable network connectivity.

- **IT Infrastructure & Support Specialist (Part-Time) – SKY HRT**

Cairo, Egypt | Apr 2025 – Present

- Designed, implemented, and maintained the complete IT infrastructure for a small business environment on a part-time basis, including Microsoft 365 administration, network connectivity, endpoint security, device management, printers, shared resources, and day-to-day technical support.
- Configured and managed Microsoft 365 business accounts, user access, and email services for company employees.
- Managed routers, network connectivity, shared resources, printers, endpoint devices, and infrastructure-related troubleshooting.
- Provided ongoing technical support while troubleshooting hardware, software, Windows operating systems, and network connectivity issues.

- **IT Infrastructure & Network Administrator – COMPUHOME Company**

Cairo, Egypt | Jun 2012 – Jun 2017

- Installed, configured, and maintained engineering and technical software for client environments, ensuring compatibility with workstation hardware and operating systems.
- Performed software installation, configuration, activation, updates, troubleshooting, and version migration for engineering applications.
- Optimized high-performance workstations for CAD, 3D modeling, rendering, and engineering simulation by configuring hardware resources, storage, memory, and GPU settings.
- Installed and configured workstation drivers for NVIDIA and AMD graphics cards, plotters, printers, scanners, and other engineering peripherals.
- Diagnosed and resolved software compatibility, installation, activation, licensing, and performance issues for engineering applications.
- Created and deployed Windows images preloaded with engineering software to accelerate workstation deployment and standardization.
- Provided onsite and remote technical support for engineering companies, ensuring minimal downtime and uninterrupted business operations.

- **SOC Analyst Intern – Cybersecurity / Blue Team – IT Gate Academy**

Cairo, Egypt | Jan 2025 – Present

- Completed a one-year hands-on SOC & Blue Team program covering SOC operations, threat monitoring, incident response, and DFIR.
- Practiced alert detection, triage, log analysis, investigation, escalation, and incident reporting.
- Gained hands-on experience with IBM QRadar & Splunk for log ingestion, correlation, dashboards, and alert analysis.
- Integrated Fortinet FortiGate with SIEM using Syslog for centralized security monitoring and threat visibility.
- Conducted practical DFIR and ethical hacking exercises across Windows, network, and web environments.

- **Projects**

- Enterprise Network Infrastructure Project – CCNA

[LinkedIn Project Demonstration](#)

Designed and configured a simulated enterprise network infrastructure using Cisco Packet Tracer, including VLAN segmentation, inter-VLAN routing, OSPF configuration, subnetting, DHCP, DNS, and network connectivity troubleshooting.

Technologies Used:

Cisco Routers & Switches | VLAN | OSPF | TCP/IP | Subnetting | DHCP | DNS

- **Certifications**

- Certified Ethical Hacker (CEH) – IT Gate Academy | 2026
- CCNA 200-301 Training – CLS Courses | 2024
- CCNA: Introduction to Networks | 2024
- CCNA: Switching, Routing, and Wireless Essentials | 2024
- CCNA: Enterprise Networking, Security, and Automation | 2024
- MCSA (Windows Server 2019) | 2026

- **Education**

- **Ain Shams Academy - Bachelor of commerce**
Bachelor of Commerce – Ain Shams Academy
Very Good | 2018

- **Languages**

Arabic - Native

English – Very Good

- Windows Server Administration Project – MCSA

[LinkedIn Project Demonstration](#)

Built and configured a Windows Server 2019 environment including Active Directory Domain Services, Group Policy Management, DNS, DHCP, user administration, shared folder permissions, Additional Server Configuration.

Technologies Used:

Windows Server 2019 | Active Directory | Group Policy | DNS | DHCP | Hyper-V

- Windows Server 2022: DHCP and DNS | 2026
- VMware ESXi Administration Training | 2026
- Career Essentials in System Administration
- ICDL Certification | 2018
- Database Fundamentals using Microsoft Access | 2018
